

Gateway Mini Clean Up

The most recent event coordinated by the UHCA Beautification and Planning Committee was the “Mini Cleanup” at the Washington St. and Lincoln Ave. Gateway on Saturday March 10, 2012. UHCA designated funds from our membership dues to pay gardener Bernardo Celaya and his co-workers to cut back the overgrown bougainvillea, pull weeds and haul everything away. In addition, a handful of volunteers worked hard along with Bernie and his crew, chopping, weeding and picking up trash; it sure looks clean now! Maybe it’s a little too clean? Rest assured, the bougainvillea will grow back and look better than ever, allowing us to see the trees and river rock UHCA installed with the landscaping years ago with University Heights resident’s donations. We are planning to plant something low maintenance in the bare dirt at the corner by the pedestrian crossing sign, so watch for that update.
